Gregory N. Connolly, D.M.D., M.P.H.
Director, Massachusetts Tobacco Control Program
Massachusetts Department of Public Health
250 Washington Street, Fourth Floor
Boston, Massachusetts 02108

Dear Dr. Connolly:

On November 5, 2001, Philip Morris Incorporated ("Philip Morris") received a revised list of sub-brands for testing of pH on a puff-by-puff basis. The revised list, provided by Mr. Jeff Wayne of the Massachusetts Department of Public Health, includes 3 sub-brands from each Philip Morris brand style having a national market share of 3% or more and therefore comports with the requirements of CMR 680.102(B)(5). Philip Morris understands that the revised list of sub-brands supercedes the list previously designated for pH testing by the Massachusetts Department of Public Health on March 15, 2001.

As of November 5, 2001, the list of sub-brands that Philip Morris is to test for pH on a puff-by-puff basis is:

Marlboro KFHP Lt
Marlboro KFHP Lt MEN
Marlboro KFHP Mild MEN

Basic 100 FHP UL MEN
Basic 100 FSP UL
Basic 100 FSP Lt MEN

Thank you for your prompt attention to the need for a revision to the list of sub-brands to be subjected to pH testing.
